

## Capturing Clouds

### Tamuz Nissim -(music and Lyrics)

#### **Make it last**

---

You hear it tick you feel it moving sometimes slow  
sometimes fast. Leaves *will* fall then trees *will* blossom  
pain *shall* pass.

You know like me that times are changing they also said  
so in the news,  
so when you don't know where you're going sing the  
blues.

...

It hits you when you see a picture from just a few years  
ago.  
light is changing, seasons passing

People go.

But you're here, Make it last!

## **Capturing Clouds/ Tamuz Nissim (music and lyrics)**

---

wandering around, following a sound  
the way it passed me by it almost made me cry

Capturing clouds floating up above admiring the rain  
I hear that song again

*Looking for the moon , I steal away some time*

*Looking for the sun when will I know*

Warm summer night flickering fireflies appear and  
disappear just like the song I hear.

Then in the fall

When leaves meet the ground

We're hanging on so tight Love is the tallest tree.

*you're*

*mine?*

*Looking for the moon, I steal away some time*

*Looking for the sun and soon I'll know*

Pink evening skies color the water

The river is our path

I know we'll meet again

wandering around following a sound  
it took me for a spin  
I told him please come in.

*you're*

*mine.*

*Looking for the moon, I steal away some time. Looking  
for the sun and now I know you're mine.*

## **Ray of Hope**

I want to be younger  
with dreams that aren't broken to believe in life as naive.

I want to be bolder and speak up my truth with out caring  
what if or who will..

I still wish to change

*but then my voice breaks and the darkness covers all.*

But then I remember that you are still here my ray of hope  
and joy.

## **Wake up call (Listen)**

Listen listen

there is a heart that's beating a soul that's crying  
full of memories

a song, a hymn that is asking where is kindness, was it  
ever here?

Listen, feel, touch

where I start you begin

*the us we call one is soon to be done*

Hear the wind that blows

and shakes the trees

this breeze can shake away your deepest fears.

Don't let me fall,

not alone, not again

Where you begin I start where we are there's no end.

Open your ears

open your heart

and live and love and learn.

## **What a Pair**

---

Every day  
That sweet look in your eyes *is* a spark  
that just glows in the dark *lets* me know  
that this day *will* be fine,  
it's a sign  
and it's alright with me cause I'm feeling divine.

## Here Comes The Sun / George Harrison

---

Little darling, it's been a long cold lonely winter  
Little darling, it feels like years since it's been here

Here comes the sun  
Here comes the sun, and I say It's all right

Little darling, the smiles returning to the faces  
Little darling, it seems like years since it's been here.

Here comes the sun  
Here comes the sun, and I say, It's all right.

Sun, sun, sun, here it comes

And now I just want to squeeze you close to my heart,  
to show you how much I care.

Will I dare? You're still there? What a pair!
